

Shortstown
Primary School

April 2021

Shortstown Primary school have been engaging with Making Me, for a few years. The whole staff training enabled everyone to take ownership of children's emotional literacy and understand how we can support each child, in such a simple way. The children use KIPSY, daily, to express their feelings and conversations with staff, support their ability to make a positive start to the day, regardless of how they have entered the school.
